Minimum quantity per order is 2

Quantity for pricing is total birds of one breed

**Small Order Charges:**  
Add \$8.00 for orders less than 10 of any one age group

**You must provide your own containers**

"READY-TO-LAY" refers to pullets that are at the maturing stage (age and weight) and will usually start laying within 2 to 4 weeks if proper management and environmental conditions are adhered to.

**Please note** that other breeds mature several weeks slower than the Red Sex-Link and they will not produce as many eggs, even in proper conditions

All RTL are beak treated at day old to help prevent picking and egg breakage. Beak treatment still allows the hens to "scratch" feed or range. Pullets will have been on 12 hour of light per day when you receive them. Increase 1/2 to 1 hour per week (in the morning) until you reach 16 hours of day light per day. Total hours of light per day and proper nutrition (no scratch or "green scraps") will bring the pullets into lay. Greens and scratch may be given at a later age, however, if birds have access to these feed sources we recommend a vitamin supplement in the water to prevent a nutritional deficiency.

**Proper Handling Procedures to Prevent Contamination:** Please be aware that all poultry, even chicks, are livestock and should be treated as such. Proper handling procedures will reduce or eliminate the chance of bacterial contamination. A human hand can have hundreds of species and millions of individual bacteria on it, as can poultry. **Wash your hands with soap and water after handling poultry or any equipment that comes in contact with poultry.**

**Frey's Guarantee:** We guarantee 100% live arrival of the quantity ordered. Extras may be included in your order. Orders are accepted subject to conditions incidental to the hatchery business. Our responsibility for loss or damage arising out of incorrect shipment of breeds, sex or numbers, delay or failure of shipment or any other cause is limited to the original price paid. Frey's Hatchery Ltd. Operates under Federal and Provincial government regulations in regards to the operation of a licensed hatchery, animal husbandry practices, and disease control standards. It is understood and agreed that no representation
